Welcome to Nevada Advanced Pain Specialists!

Every individual is evaluated for the root cause of their pain – not just a “quick fix” approach to only provide symptomatic relief. We employ a methodical and physical medicine-oriented approach that includes analysis of biomechanics, joint motion, as well as skeletal, nerve and muscle tissues. Only the latest diagnostic tools and technologies are used by the professionals at Nevada Advanced Pain Specialists to make accurate assessments including: EMG/Nerve testing, MRIs, x-rays, bone scans, and diagnostic pain injections.

The most important information comes from you – the patient. Our providers will spend time asking questions and listening to you. We understand that your personal experiences with your pain represent some of the most important data available to us for accurate diagnosis and effective treatment.

Once an accurate diagnosis is reached, we will employ various modalities, physical therapy, medication management, and appropriate interventional techniques to treat your pain.

KNOW YOUR INSURANCE PLAN

Your health insurance is based upon a contract between you and the insurance company, or in some cases, the insured party's employer and the insurance company. If your employer has selected your plan, it is customary for the employer to describe and discuss the benefits of the plan with the employee. It is the responsibility of the insurance company to provide supporting documentation (Plan Benefit Booklet) and the Enrollment Card of the insured.

It is the responsibility of the insured party who benefit from this plan, or who receives benefits from this insurance plan to know:

- The commencement date of the plan
- If there is an annual deductible, and how much
- Which hospital, laboratory, and radiology center the carrier is contracted with
- The amount of your co-payment

It is your responsibility to present the insurance card to the receptionist when checking in. It is also your responsibility to notify our office of any changes or termination of your plan.

The contract between the "Provider Service" (Physician) with any insurance company is:

- To provide quality medical care to the patients
- To submit the claim for service to the appropriate carrier in a timely fashion
- To give credit to the patient for any "contracted discount"
- To collect co-payments and other balances due from patient at time of service

If you ever have questions regarding your coverage, you will need to contact your employer or call the number listed on the back of your insurance card. Please refer to your Explanation of Benefits from your insurance company and your monthly statement from Nevada Advanced Pain Specialists.

We will bill services at the end of each work day. If you have provided information that is not accurate, we will be required to bill you directly. Changes made to your insurance information after the fact comes with a \$25.00 charge to you.
